THE EVOLUTION OF MARY ANN.

To Mr. Johnson and his wife a charming baby came, and soon the task devolved upon them to overhaunt the family tree, the Bible they did scan, and they found that they'd call her Mary Ann.

The baby grew and soon became so very arbitrary. She dropped the good, old-fashioned name that was known as Mary. At last she reached the age of ten, and then she showed more folly, and then she was named, and Mary Ann was "Mollie."

In beauty and in grace she grew, more charming every day. Until at last a lover came and called her "Mollie," and she cultivated modern slang and said that "all the same."

Whit! what! said Mary Ann, my name is really Mollie."

PRESIDENT FISH and General Manager HARARAN have affixed their signatures to and thereby made operative the plan of pensioning employees of the Illinois Central Railroad. In order to carry out the scheme, a pension fund of \$250,000 has been provided, and each year the company will set apart a sum not to exceed \$100,000 for the payment of pension allowances for the year.

The contest over the will of the late Senator JOHN R. MCPHERSON in New York develops the fact that it is worth \$700,000, instead of \$500,000, as first believed. The trouble with your average Social-Anarchist is that \$1 always looks like \$10,000 in his eyes, and that a man who makes enough in a year to buy a decent suit of clothes is a millionaire. A few weeks ago The New York Herald printed a list of nearly sixty millionaires in Cincinnati, when the fact is there are not three persons in that city who could scrape together that much money to save their lives.

The Army Canteen question will be fought all over again in the next Congress. Army officers are freely predicting that the prohibitory law will be revoked, and the privilege of selling beer and light wines at Army Post Exchanges will be renewed. Although no official arrangement has been made in the matter, commanders throughout the country are sending to the War Department their view of the working of the law and its effect on the enlisted men.

Many Post Commanders allege that there is an increase in the number of court-martials on account of the fact that the men are no longer under the control of their officers in the matter of drinking.

A company composed of capitalists of Bath county has been formed with headquarters at Sharpsburg for the purpose of building telephone lines from Sharpsburg to Owingerville, Mt. Sterling, Flemingsburg, Mayfield, Georgetown and all intervening points.

A remnant figure of Queen Victoria in white marble has been placed over her tomb at Frogmore. It was made forty years ago by Baron Marochetti at the time that he carved the figure of the Prince Consort, which now lies next to it, and had been stored away until it was needed.

WILL COME THIS WAY.

The Ellen N. Thinks of Breaking Into Ohio Via Mayfield Town.

The L. and N. will use over a million bricks this summer to rebuild one of the tracks on the Mayfield branch below Pleasant Valley.

It is probable that the short tunnel near Carlisle will be cut out altogether.

The Company has expended at least \$500,000 on that branch of its line since becoming owner of it.

It is stated upon good authority that the Company will bridge the Ohio river at Mayfield, and extend to Columbus, O.

The L. and N. owns a right-of-way from Aberdeen to Columbus, nearly all of it graded, and at one time twenty miles of it was tracked.

The extension will run to the Mayfield Branch, will become the main line, and communication from this part of Kentucky will be opened up with that part of Ohio.

WEDDING DIDN'T OCCUR.

Arrival of the Father Prevents the Marriage of His Daughter.

Miss Ethel Harris of Lexington and Abner Buchanan of Mason county journeyed to Cincinnati Tuesday to get married without the consent of the father's father.

The father, W. E. Harris, went to the city and intercepted the young couple at the Depot.

He refused to permit the couple to marry and took his daughter home again. Buchanan did not despair, and says he will yet wed Miss Harris.

A GREAT FOOD SHOW

PAN-AMERICAN EXHIBIT WILL REPRESENT BOTH CONTINENTS.

Its Guy Booths and Apparatus-Sapse Will Make It a Rival to the Midway—Realized Dream of the Tropics as an Annex.

Born of a great idea, achieving matchless greatness under the best management any great exposition has ever had, the matured benefit of the Western world and with a landscape of prosperity threatening to thrust itself into it, the Exposition of the Americas in these glittering first days of the new century makes a fair bid to pass into history as one of the incidents inevitable in the forward sweep of the Western Hemisphere, one of the things called by Manifest Destiny and Nature.

In the Division of Foods and Their Accessories installation is about to begin in a compact manner and with an elegance suited to the selective character which has been made possible by the over-demand for space. Lucky do those who have secured tickets for the opening, for the first division in the highly finished quality and intelligible arrangement of the appetizing display.

Processes and methods of manufacture and packing will be shown, and in addition souvenirs and samples will be distributed. The exhibits of foods demonstrated, so that this division will present an altogether festive appearance day and night, and, with handsome attendants and elegant booths, will be a popular free rival of the Midway in entertainment the next two weeks.

The Food Division is the largest in the Fair, and the exhibits of accessories three times a day, whether they induce in the allurements of art, music and science or not. The exhibits consist of chocolates, coffees, teas, splices, flavoring extracts and baking powders, sugar, butter, cream, eggs, flour, other dry preserves, jams, jellies, marmalades, nuts, mushrooms, dried fruits and vegetables, foods prepared from cereals, beverages for household and other uses, preserved and prepared meats and fish, gelatine preparations, preserves, sundries and hardware articles.

As an annex to the Food Exhibit "Equatorial Pan-American" will be a realized dream of the tropics which must be seen to be appreciated and will consist of live trees, plants, vines and shrubs selected from plantations and botanical gardens of tropical America. Without going into further detail or comparison, the public can be assured that the Food Division of the Pan-

MISSING BANKER.

L. N. Pollock, of Cleveland, O., committed suicide by shooting in Seattle, Wash.

HE DISAPPEARED SOME T. N. DAYS AGO.

In His Room Was Found a Pistol, Box of Rough on Rats and a Pile of Acouite Tablets.

He Was the Promoter and President of the Cuyahoga Savings and Banking Co., Now in the Hands of a Receiver.

Seattle, Wash., May 9.—A man believed to be R. N. Pollock, the missing president of the Cuyahoga Savings and Banking Co., of Cleveland, O., killed himself here Wednesday morning in Hotel York with a pistol. A razor, a two-ounce bottle of rough on rats and a phial containing 100 tablets of acouite were found near in hand. All papers belonging to the man had been burned before he killed himself.

Pollock arrived here Monday and registered as James Fisher. He failed to appear during the next day and his body was found. The coroner was called in. The deceased had apparently died after the firing of the fatal shot. No clue could be obtained in the room and the name of R. N. Pollock was found written on the inside of his coat, placed there by a Cleveland, O., tailor. Pollock was well dressed and had \$30 in his pocket.

Tenants Widow and Three Children. Cleveland, O., May 9.—R. N. Pollock, who disappeared here Tuesday morning, was the president of the Cuyahoga Savings and Banking Co. of this city. He was 38 years old and married and had three children. He was the promoter of the bank which closed its doors last Monday. Pollock disappeared two days ago and had not been definitely located until news of the suicide reached here Wednesday night.

The condition of the bank is yet a matter of conjecture, 19 books being in the hands of the receiver. The bank had deposits of \$1,000,000 at the time of closure. The extent of ruin of the bank's worth was feared and to avoid the outcome of an immediate demand for such a large sum of money, the directors decided to suspend business and a receiver was appointed.

Other Cleveland bankers, it is said, would have gone to the assistance of the Cuyahoga savings bank had they been asked. The bank was not prominent among the city's financial institutions, being located in the residential district and its deposits being for small sums. The receivership of the bank state Wednesday night that Pollock did not take the money that was in the bank at the time of his leaving the city and it is believed that knowing that a crisis was near, Pollock acted safely in flight.

The chairman of the "C. & C." Co., which went into the hands of a receiver on account of the failure of the bank, is said to be not seriously involved and it is expected to resume operations soon with increased facilities.

OVER BEDS OF ROSES.

The Presidential Party Received Its First Taste of California Hospitality.

Los Angeles, Cal., May 9.—Wednesday the president and his party had their first taste of the hospitality of California. The weather was beautiful and visitors seemed to have put aside the bright colors of the spring and the California congressional delegation met the president at Redlands, in the San Bernardino valley, and welcomed him to the state. Through an avenue lined with palms and vine-covered maste, the president and his party walked to the hotel, a triumphal arch of flowers and fruit, and to the Casa Loma hotel, on the balcony of which the speaking took place. A drive through the orange groves and parks followed. All along the route the people cheered and Mrs. McKinley, with flowers, and through the streets they bombarded him from the windows with confetti until the air was a perfect mass of color. From Redlands to Los Angeles every station was crowded with children waving flowers in their hands. The approach to the city of Los Angeles was heralded by cannon and whistles.

CITY BEAUTIFULLY DECORATED.

At the station the party was met by the citizens' committee and many distinguished people from all over California. Gen. Shafter, commander of the department of the Pacific, with his entire staff in full uniform, had come to meet the president. WILL NOT BE TRANSFERRED.

Rev. Holt Refused to Be Removed From M. E. Church, Dayton.

Rev. D. F. Holt, Pastor of TOWER M. E. Church of Dayton, whose actions have been questioned by members of the congregation, has been removed by the Presiding Elder of Conference, but Mr. Holt refused to be removed and charges were ordered filed.

The charges have to be filed by one of the Trustees, and the Presiding Elder then decided that the Trustees must prove him guilty.

A writ was prepared and ready to be filed when the Presiding Elder decided as to whom the burden of proof rested on, and they were then with drawn, and it was decided not to file them.

The members thought that Rev. Mr. Holt should be made to prove his innocence, as well as for them to prove his uprightness.

The Presiding Elder is anxious to have the matter settled, but as Mr. Holt refuses to be transferred and the other members refuse to file charges against him, it is now decided that the Presiding Elder will be dropped until the next State Conference, when it is to be again called to account for the Confession of Faith.

LEWIS'S HOT CAMPAIGN.

Democrats Decide Not to Nominate Any County Officers.

A special from Vicksburg says that the leaders of the Democracy in Lewis County have decided to not put a ticket up to be voted for next fall. They will probably name a candidate for the Legislature, and use the energy and means that would be spent on a county ticket in the legislative race.

In the fall, Vicksburg will pass through the hottest municipal campaign in its history.

Neither party will nominate a ticket, but the saloon and anti-saloon people will place tickets in the field.

Since closing the saloons the feeling in the town has become very bitter on both sides and in some instances boy-cotting tactics have been resorted to.

SALOONS HAVE LICENSE.

Bars of Three Hotels in Vicksburg Are Open Again.

The Vicksburg City Council held a regular meeting Monday night, and when it was ascertained by the Mayor that those favoring license of saloons had a majority, he refused to let the motion be voted upon.

When a member of the minority made a motion to adjourn, Mayor Pugh, without letting a vote be taken, declared the meeting adjourned against the protests of a majority of those present.

Tuesday night another meeting of the Council was held and the ordinance which fixed the license at \$50 per annum was amended to read \$50 per annum.

Licenses were granted to the Carter House, St. Charles and St. Nicholas Hotels.

The hotels, which had been closed for the issue of license, were at once reopened to the public.

GENERAL ASSEMBLY.

Mr. R. K. Hoefflich Will Attend the Meeting at Philadelphia.

Mr. R. K. Hoefflich will leave next Wednesday for Philadelphia as a Delegate to the Presbyterian General Assembly, which convenes in that city and will continue in session two weeks. At its close Mr. Hoefflich will continue his vacation to the mountains of Western New England for a four weeks' sojourn.

The important matter to be disposed of by the General Assembly is the revision of faith, as a number of Presbyteries throughout the United States have instructed their Delegates to vote for the adoption of the Declaration of Faith and it is not a wise prediction as yet it will be changed.

There are six Presbyteries in Kentucky and two Delegates are allowed from each, a Minister and an Elder. Ebenezer Presbytery, to which Maysville belongs, met at Ashland last Friday and Dr. Condit was the Minister selected, with Mr. Hoefflich as the Elder.

The vote upon revision was decidedly no, though this is not mandatory upon the representatives, yet generally the voice of the body influences the members who go to the Church convention and the Presbytery. For any further discussion on this subject, see the Minutes of the Presbytery, which it is to be hoped will be dropped until the next State Conference, when it is to be again called to demand that the delegation will attend to demand that it be removed.

RIVER NEWS.

The Indiana is due down from Pompey tonight.

The Keystone State will be up tonight for Pittsburgh.

The Henry M. Stanley will be up tonight for Charleston.

The Pittsburgh coal combine doesn't want to buy the earth. It is coal they are after.

The Pittsburgh and Cincinnati Packet Company is talking of building a fine, fast, 1,500-ton sidewheeler boat.

The Louisville and New Orleans towboat pilots are each paid \$600 a trip, several of them have made three trips recently and may make another before the river goes low.

While the water in the three rivers is falling, the river coal combine has decided to take advantage of the opportunity and rush repair work on some of the boats. Captain J. E. Evans and Joseph Walton are to be sent to the Elizabeth Marine Ways and have new hulls built under them. After these improvements are completed, the boats will be given a general overhauling. As rapidly as possible the combination will operate nearly all its boats. When they are soothed the fleet will present an attractive appearance after the work is done.

The possibility of getting a good road at an acceptable cost has been decided, and tests extending over a number of years on streets in various cities have shown that the cost of only a smooth and solid roadway, but one that can be kept in perfect repair at a minimum.

The first cost in this city, where the roads are at present dirt, is estimated at \$100,000 per acre.

"The cost of repairing 'on heavy traffic roads' is estimated at \$100 per acre per year, while asphalt costs over \$3 cents."

The addition of tars renders the roadway smooth and hard, and in winter, it is easily repaired and does not require much wearing of the surface.

"One block of tar-macadam laid on a dirt road in a street where there is heavy teaming shows no perceptible wear today. In such cases the cost of maintenance have been in less eight years without repair and are still in good condition."

In this connection it might not be uninteresting to the taxpayers of Maysville to know just what the present so-called "streets" have cost them during the past two years.
